## Eastern Section Hard Hit By Heat and Storm

Five Known Dead In Albany and Vicinity As Result of Heat Wave and Storm—Great Havoc From Storm In New England—Two More Deaths Today In New York—Backbone of Torrid Wave Believed Broken.

Albany, N. Y., July 23.—One death today brought the total in Albany and vicinity to five dead, critically injured, four pronounced dead and a score less seriously hurt as a result of the two days' heat wave and the terrific lightning and wind storm which broke late yesterday afternoon.

The entire eastern section of the state is slowly recovering today from the effects of the twister which wreaked havoc over a broad path.

The dead are: Nathan Wagner, 9, New York city, died today of injuries suffered when struck by a falling tree at a summer camp at Knickerbocker Lake, Catskills, nine miles from here.

Paul Muskat, 14, House of the Lord Shepherd, Troy, killed by falling branch when seeking shelter in the home when the storm broke up a party of children inmates.

James M. Droogan, 30, Albany, injured by heat while at work in his home and died later.

Eugenia Sancheli, 61, Albany, injured by lightning or high voltage of toolshed in which she was seeking shelter.

Edward Conrad, 33, Amsterdam, died from overdose of drugs taken after heat prostration.

The critically injured are: Charles Ottomano, Albany laborer, struck by lightning with Sancheli, (Sancheli's fiancée), 11, Albany, struck by falling tree limb while swimming at amusement park, fractured skull.

Score Injured.

Fractures, bruises and various other injuries were suffered by an unknown number of persons, a score more were reported at hospitals who had been injured by falling trees and branches. A minor tower on one of Albany's largest churches was blown to the ground. The fronts of three stores were ripped off, small buildings were shattered and electric signs hurled from their fastenings. Not only were branches torn from trees but entire trees were uprooted. Half of the alarm signal wires were put out of commission for time.

The storm seemed to centre its fury between Albany and Schenectady. Interurban trolley traffic there was interrupted all night. Wrecked cars were being towed to clear tracks and repair the wires. One trolley car labored through the debris this morning but no attempt had been made to establish anything like a regular schedule up to noon.

A house covering three acres was reduced to kindling wood along the road. A small cottage was "blown" from its foundations and set on fire by sparks from a passing train. Traffic to Troy was also stopped for several hours last night. Telephone and telegraph communication was completely paralyzed for hours except by radio.

Storm Sweeps Entire Coast.

West of Albany, N. Y., the backbone of the torrid heat wave was believed broken in New England today following a severe electrical storm that swept the entire coast from Connecticut to Maine, causing heavy clouds to add to the fifteen miles of the sizzling weather and the thirteen drowned while seeking relief in water from the torrid spell.

The storm, welcomed gladly by a weary, sweeter humanly, left considerable damage to property, but the relief it brought from the almost unbearable heat, ruining the heat and trail buildings, tearing down roofs, temporarily disrupting the communication, and other damage was minor.

At New York, Mass., an infant, William Markowski, was killed in a house when a large tree limb was blown by the powerful wind and struck the baby carriage in which he was sitting.

At New York, Mass., an infant, William Markowski, was killed in a house when a large tree limb was blown by the powerful wind and struck the baby carriage in which he was sitting.

## Norris Charges Frame-up Attempt

Fort Worth, Texas, July 23.—The Rev. J. Frank Norris, Baptist revivalist, who shot and killed D. E. Chippis, today, in the Searchlight, a publication which he edits, repeated the charge that his enemies are attempting to "frame him."

In an editorial which has a two-column position on the first page, Norris resumes his attack on the Tarrant county grand jury which he challenged several days ago as "hand-picked."

He charges in his paper that the investigating body was selected for the explicit purpose "of indicting Mr. Norris for criminal libel" in connection with his attacks on Mayor H. C. Meacham and City Manager O. E. Carr.

The editorial further charges that a group of persons at a clandestine meeting subscribed funds for the private counsel which had been retained by Mrs. Chippis as special prosecutors.

Norris says in the editorial that he "is in full possession of the names of the persons participating in this conspiracy to raise funds to job the pastor and will come out when we come to open trial."

## Frenchmen Again Jeer Tourists

Paris, July 23.—Parisian night life no longer has attractions for the timid American tourists.

Auto-bus companies have suspended their "See Paris by Night" tours, because last night for the third successive night, there were demonstrations against sight-seeing busses carrying English and German visitors as well as Americans.

As busses passed through the Montmartre districts, epithets, such as only Montmartre and the dock districts of New York could be hurled at the visitors.

"Carry on your spree at home, not here," the crowds yelled at the sight-seers.

The demonstrations probably are due to bitter campaigns being carried on by a number of Parisian newspapers which are violently attacking tourists for taking advantage of the slump in the franc, which is causing increased prices for the French.

Frenchmen are angered by the sight of these visitors enjoying the gay life and the champagne, which the natives cannot afford.

## Use Six Million Gallons Daily

The residents of London during the warm spell the past week have been using six million gallons of water daily. The average consumption is about 4,500,000 gallons a day.

While considerably more water is being used during the warm spell than when the weather is moderate there is a plentiful supply on hand in the city's waterworks due to the fact that about two years ago the water department increased the height of the dam at Cooper's Lake which increased the storage capacity.

The water department, however, has issued a warning that sprinkling is prohibited except during the hours set aside for that purpose as those depending on the high ponds of the city have greatly reduced water pressure.

Stormy Waterfront Fire.

Boston, July 23.—A four-story fire swept the Atlantic works in East Boston early today, threatening for a time to sweep out the waterfront and tenement district. Scores of persons from their homes, and some an estimated 30,000 gallons of water were being poured on the burning building.

Several men arrested.

Then, H. G. Graham of Brooklyn was arrested Thursday for failure to observe the traffic signal at the Bowdoin Street Bridge. He was fined \$10 and cash bail in the sum of \$20 for his appearance in police court on Saturday.

Three Banned to Death.

Edmonton, Alta., July 23.—Three men in which they were charged with the murder of a woman, were sentenced to death by hanging.

## Poincare Heads His Cabinet

M. Poincare Selects Cabinet Which Appears to Be the Strongest France Has Had for Some Time—Several Surprises in List.

Paris, July 23.—M. Raymond Poincare has completed his cabinet, he informed President Doumergue shortly after 1 o'clock this afternoon.

M. Poincare has decided to ignore the protests of the Radical-Socialist caucus and is himself heading the cabinet.

The cabinet, which M. Poincare submitted to President Doumergue, was officially announced as follows:

M. Raymond Poincare, premier and minister of finance.

M. Barthou, minister of justice and vice president.

M. Aristide Briand, minister of foreign affairs.

Senator Albert Sarraut, minister of interior.

M. Edouard Herriot, minister of public instruction.

M. Leygues, minister of marine.

M. Painleve, minister of war.

M. Louis Marin, minister of pensions.

M. Maurice Bekaumont, minister of commerce.

M. Andrew Tardieu, minister of public works.

Senator Perrier, minister of colonies.

M. Queuille, minister of agriculture.

"There you are," said M. Poincare, as he left the Elysee Palace, smiling and with something of the air of a magician who has just performed a difficult feat.

"The battle is won and it wasn't hard."

"Every body was ready to aid."

"I hope we have a ministry which will last for a while."

Premier Poincare will present the cabinet to President Doumergue at 7 o'clock this evening and it is expected that the cabinet will meet parliament on Tuesday.

The cabinet list contained several surprises, the foremost of which was the inclusion of M. Herriot as minister of public instruction. This appointment, together with that of Senator Albert Sarraut, will probably offset the protest of the Radical-Socialist caucus against M. Poincare accepting the premiership.

M. Herriot and Senator Albert Sarraut will be counted upon to keep the Radical-Socialists in line.

The cabinet, which is a "union sacree"—sacred union—is perhaps the strongest that France has had for some time, having in its ranks some of the most prominent leaders of the year, representing all of the major factions.

M. Poincare appears to have made a successful selection of a ministry, which he launches under rather more auspicious circumstances than recent ministries have been launched.

MIGRATION OF AMERICAN VACATIONISTS TO EUROPE.

Washington, July 23.—If Uncle Sam is bated in Europe as much as reported, then Americans must love their enemies.

## 10 People Die In Bus Mishap, Driver Is Blamed

Eight Women and Two Girls Killed And Score Injured When Night-Seeing Bus Overturns—Charges Driver Was Reckless.

Nyack, N. Y., July 23.—Eight women and two girls were dead today and 30 others were suffering from injuries, some of them serious, as a result of the overturning of a night-seeing bus last night at Sparkill, near here.

Every person in the bus, which carried forty-eight women and children from Brooklyn, was either killed or injured. The party was returning from Bear Mountain, where the passengers had gone to escape the heat.

The bus, speeding down a hill when the brakes refused to hold, could not make a sharp turn at the bottom of the hill and turned a somersault, crashing against the windows of a store.

Daniel Lastro, driver of the bus, who was only slightly injured, was arrested and held in jail for grand jury action.

The dead are Mrs. Katherine Barth, Marguerite Rieper, 12, Mrs. Henry Schulz, Katherine Albert, five, Mrs. Carrie Englehardt, Mrs. Mary Reiser, Mrs. Sweeney, Emma Billings and two unidentified women. Physicians at the Nyack Hospital, where the injured were taken, feared that several of the injured would die.

Fifteen passengers whose injuries were not serious were taken home to Brooklyn this morning.

Sparkill policemen found the women and children groaning and struggling under the wrecked bus, squirming to free themselves. While children screamed for their mothers, the members of the fire department were summoned to lift the bus.

Aided by nearly the entire population of the village, the firemen extricated the victims. Eight had been killed almost instantly and it appeared that many of the injured could not live.

The injured were rushed to the hospital in various conveyances. The village fireman carried many of the victims in his ice wagon, lashing his horses furiously during the four-mile journey.

Blames Bus Driver.

New York, July 23.—The bus crash at Sparkill, N. Y., in which a group of Brooklyn women and children were killed and two score injured, was directly due to the recklessness of the driver, it was charged today by one of the survivors.

Mrs. Madeleine Rensbecker, suffering at her home here from shock, lacerations and contusions, declared that the high speed at which the machine was travelling on a down grade was responsible for the driver's losing control.

"I could feel that something terrible was going to happen," she said. "And I knew that other passengers were terrified by the fearful manner in which the bus, jammed with women and children, rocked and careened down the hill at high speed."

The woman's baby daughter escaped with slight abrasions.

## Storms Brought Relief from Heat

Kingston and Ulster county found some relief from the heat yesterday when thunder storms caused the temperature to drop from near the one hundred mark to sixty shortly after 5 o'clock.

The day the temperature was near the century mark and tested thermometers registered 114 degrees in many places.

About 5 o'clock a male preceded a dash of rain which was followed later with a regular shower which cooled off the air considerably. The temperature dropped 10 degrees in half an hour and a cold rain fell from the severe weather of the past three days.

If water, the storm and early cooling threatened to bring a respite from the heat, a heavy shower followed which cooled off the air considerably. The temperature dropped 10 degrees in half an hour and a cold rain fell from the severe weather of the past three days.

The storm, however, did not bring a respite from the heat, a heavy shower followed which cooled off the air considerably. The temperature dropped 10 degrees in half an hour and a cold rain fell from the severe weather of the past three days.

## Charge Amundsen Slighted Noble

By Spreading False Reports That an Englishman Piloted the Norge—"Credit Due Noble Was No More Than Due a Good Chauffeur."

Rome, July 23.—The credit due General Umberto Nobile, captain and designer of the Dirigible Norge, was no more than that due a good chauffeur, Roald Amundsen, Arctic explorer, was quoted today as having said by S. S. Quattrini, an Italian reporter who accompanied the dirigible on its flight from Rome to King's Bay, Spitzbergen.

Amundsen, according to Quattrini, made the statement in conversation with the captain of the Norwegian Warship, Heimdal, at King's Bay. The statement was overheard by a Norwegian sailor, who reported it indignantly to the quarters of the Italians.

Quattrini accused Amundsen generally of deliberately seeking to belittle Nobile's contribution to the polar flight.

Quattrini charged that Amundsen spread false reports in the British Press tending to slight Nobile, saying that during the Rome to Pulham hop, the Norge was piloted by an Englishman.

Secondly he said Amundsen concealed the fact that the scientific bodies of Petrograd had given the Italian leader a remarkable reception.

Finally Quattrini said, Amundsen almost caused the failure of the expedition by failing to respond immediately to a hurry call when a change of wind made an immediate stop of advisable.

Amundsen, according to Quattrini, did not appear until an hour and fifty minutes after being called, forcing Nobile to unload 400 pounds of oil.

Quattrini asserted that even President Thomas of the Oslo Aero Club deplored Amundsen's attitude toward Nobile, and begged the Italian to forgive the expedition leader.

## EXPERIENCES ADVENTURE RIVALING HIS FICTION

Kennebunkport, Me., July 23.—Booth Tarkington, noted Indian author who spends the summer months here, knows today the thrill of actually experiencing an adventure as exciting as any he has penned.

Tarkington's motor boat, caught in a last night while several miles off the coast and the author received minor burns in extinguishing the flames.

The crippled boat then was caught by a heavy wind which began sweeping it out to sea.

Other boats, nearby, witnessing the plight of the author, came to the rescue "in the nick of time," in a last ditch effort, and today Tarkington, outside of slight burns, is none the worse for having actually gone through an adventure as thrilling as he has ever written about.

## CREW OF 60 RESCUED BY STEAMER MARANI

Boston, July 23.—The crew of sixty of the steamer Port Kenia, which went aground on the north side of Watlings Island in the West Indies, has been taken aboard the United Fruit Steamer Marani, due in New York next Monday night, according to advices to the United Fruit Company offices here today.

The advices stated that the Port Kenia, owned by the Commonwealth & Dominion Line, Limited, of London, is a total loss.

The New York agents of the London Line informed the United Fruit Company of the Port Kenia's fate, resulting in the rescue of the crew by the Marani.

## GREAT DAMAGE FROM FLOODS IN AUSTRALIA.

London, July 23.—Heavy rain damage has been caused in Australia by floods throughout western Australia, according to Sydney advices to the Central News Agency.

A trainload of cattle was killed in Southwestern Australia, and the person and a horse were killed. Many houses and other buildings were damaged, and the crops were ruined.

At Fremantle, a trainload of cattle was killed in Southwestern Australia, and the person and a horse were killed. Many houses and other buildings were damaged, and the crops were ruined.

## Release "Salad King" from Jail

Mexico City, July 23.—John Francis Howard, the "Salad King" of Haverhill, Mass., has been released from jail in Cuernavaca, where he was held pending charges of having received a fraudulent divorce.

The judge of the fifth federal district in Mexico City issued a court order calling for the removal of Howard from the penal court at Cuernavaca to the jurisdiction of his own court.

The Cuernavaca court honored the order and released Howard, after he had posted bail.

Howard arrived in Mexico City under the escort of four soldiers, guarded by a guard by General Delgado, who declared that Howard might be attacked by his sons.

Albert and John Howard, sons of the "Salad King" who are being held in jail against their father in an effort to secure a financial settlement for their mother, declared that possible attacks upon their father were farthest from their thoughts.

The elder Howard announced today that "all bets are off" on the tentative agreement for a settlement with his wife in Haverhill, which he seriously considered while in jail in Cuernavaca.

## Mosconi Enters House Uninvited

Brooklyn Man Suffering From Nervous Breakdown, Frightens Washington Avenue Residents When He Enters House and Flings Self Down on Couch.

Fred Mosconi of No. 41 McDonough street, Brooklyn, who with his wife had been stopping at Lake Katrine for the summer vacation, was a badly frightened resident of No. 364 Washington avenue, shortly after 10 o'clock Thursday evening when he entered the house uninvited and flung himself down on a couch after first placing his eyes on a stand nearby.

The police department received a hurried call and Officers Bowser and Martin responded and removed Mosconi from the house and he spent the remainder of the night in the county jail.

This morning his father and wife called at police headquarters and explained how Mosconi was suffering from a nervous breakdown and that if he was released they would take him back to Brooklyn. The matter was explained to Judge S. J. Field and the young man was released.

## Called on Wife And Is Arrested

Ray C. Marsden of New York, who had been in the city for some time, was called on his wife, who was in a beauty parlor, and he was arrested when he refused to pay for the services.

He was released after a hearing and was allowed to return to his home.

## FIRST AID FOR SHOCK DESCRIBED

Health Service Tells of Various Forms and Gives Treatment.

Washington.—A lesson in first-aid treatment for various forms of shock and the many meanings of the word are defined in a broadcast just sent out by the United States public health service. It is pointed out that a commonly accepted meaning of shock refers to a sudden and violent sensation such as might be produced by a plunge into icy cold water. Or shock may mean a sensation such as is experienced when the mind is suddenly agitated by a startling emotion, as a shock of grief or fear, or of fright at witnessing a grave accident.

The term shock as used by physicians usually refers to graver conditions than those just mentioned, and particularly to that more or less profound prostration of the bodily functions following sudden injuries and after very extensive surgical operations. Electric shock is still another form of this often serious and even dangerous condition.

"In general, shock may be defined as a sudden, vital depression which may be mild in degree or which may be serious even fatal, in its consequences," says the service. "The severer degrees of shock are dangerous and the condition even when slight, should always be given prompt attention."

"When a person is suffering from shock, his face is pale and has an anxious expression, the eyelids droop, the eyes are dull and the pupils large; the skin is clammy and covered with cold perspiration, the victim is somewhat stupid in appearance and takes little interest in the things about him. He may suffer from nausea and vomiting. He may answer questions slowly. He may be partly or totally unconscious, or his mind may wander. Usually he is perfectly quiet and will not move unless disturbed. Breathing is shallow and feeble; the pulse is rapid and weak, and may not be perceptible at the wrist."

### General Treatment.

"Let us outline briefly the treatment of shock in general. When the condition of shock is observed send for a doctor at once. Pending his arrival place the person in a comfortable position, with his head low, unless there is a fracture of the skull or severe hemorrhage from blood vessels of the head or face. Remove from the patient's mouth all foreign bodies, such as false teeth, tobacco or gum. Wrap him in warm blankets or in warm clothing. Place well-wrapped hot water bottles around the patient."

"A light hot-water bottle wrapped in cloth or paper and placed over the heart, is a good stimulant. If he is conscious, give aromatic spirits of ammonia—a teaspoonful in half a glass of water, moderately hot coffee, hot tea or hot water. If the patient is unconscious do not give him anything by the mouth, but pour aromatic spirits of ammonia on a cloth and place it under his nose. This should be tested by the person rendering assistance by holding it under his own nose before giving the treatment to the patient to be on the safe side."

"Although shock is dangerous and commonly follows injuries, it must not be forgotten that the person suffering from shock may require treatment for something still more dangerous; as, for example, severe bleeding, which must be checked."

"We come now to a special form of the condition we are discussing termed electric shock. Electricity causes shock by paralyzing the nerve centers that control breathing or by stopping the regular beat of the heart. The symptoms of electric shock are sudden loss of consciousness, absence of respiration—or if respiration is present, it is slight and cannot be observed—weak pulse and burns at the point of contact with the conductor of electricity."

"The first thing to do in the treatment of electric shock is to get the patient off the live wire or otherwise break the contact of the electric current as quickly as possible. If this has not been done already:

### Extreme Care Necessary.

"One must be extremely careful not to touch the patient or the wire with the bare hands, or otherwise make contact with the electric current. If one has a pair of rubber gloves, or even one rubber glove, the victim may safely be pulled away from the contact with the current, or if there is a switch near, the current may be turned off, but no time should be lost in looking for one."

"Another way to break the current is to take the belt, handkerchief, coat or a piece of dry rope and loop it over the victim's foot or head if he is lying on the wire, and thus pull him off. If an ax is near at hand it may be used to cut the wire, but first one should make sure that the handle is dry or else wrap it with a coat or other non-conducting material before attempting to use it; or one may use a dry board, a dry cloth or a dry rope to pull the wire away from the patient. Do not strap the wire with the hand even when protected by a dry cloth, as this may be serious."

"As soon as the patient is freed from the wire and removed from danger of further contact with it, artificial respiration should be begun at once."

"One must be extremely careful not to touch the patient or the wire with the bare hands, or otherwise make contact with the electric current. If one has a pair of rubber gloves, or even one rubber glove, the victim may safely be pulled away from the contact with the current, or if there is a switch near, the current may be turned off, but no time should be lost in looking for one."

## The SEALED pump is the dealer's guarantee to you of genuine high quality Tydol

**HAVEN'T** you sometimes wondered, as you watched gasoline being pumped into the tank of your car, whether you were getting the brand of gasoline you asked for?

There is, in fact, foundation for your doubts. In certain cities, notably New York, thousands of gallons of cheap, inferior gasolines have been sold through pumps which bear the trade-marks of well-known, high-quality gasolines.

That deplorable condition is not wide-spread. Yet Tide Water and the Tydol dealers of this locality want to make certain that inferior gasolines never can be substituted for Tydol. They want to safeguard Tydol's high quality, and make it possible for you to be sure that every drop of gasoline that comes from a Tydol pump is genuine Tydol.

Therefore, Tydol dealers have united in sealing every Tydol pump in this city and vicinity.

### The sealed Tydol pump

On the intake pipe of every underground tank, which feeds a Tydol pump in this locality, Tide Water has affixed its seal. After the dealer's tank has been filled with Tydol, the intake pipe is re-sealed and remains sealed until the pump again needs Tydol.

Nothing but Tydol goes into the tank, nothing but Tydol can come from the pump.

This sealed pump is the final step in safeguarding the high quality of Tydol every minute from the time it leaves the refinery until it is in the tank of your car.

It is your visible protection against inferior gasolines, your assurance of genuine Tydol.

### The Tydol dealer deserves your business

You will find that your Tydol dealer is proud of the sealed pump. It is his proof to you that he sells quality products, honestly represented. He is a good man for you and for your family to deal with. Patronize him regularly.

### Fill up with Tydol

Stop at any Tydol pump. You will find it sealed. Have your tank filled with Tydol. Then notice the faster start, the instant pick-up, the rush of power, the smoother quieter motor.

The increased mileage and decreased carbon will leave no doubt in your mind as to why Tydol is called 'the economy gasoline.'

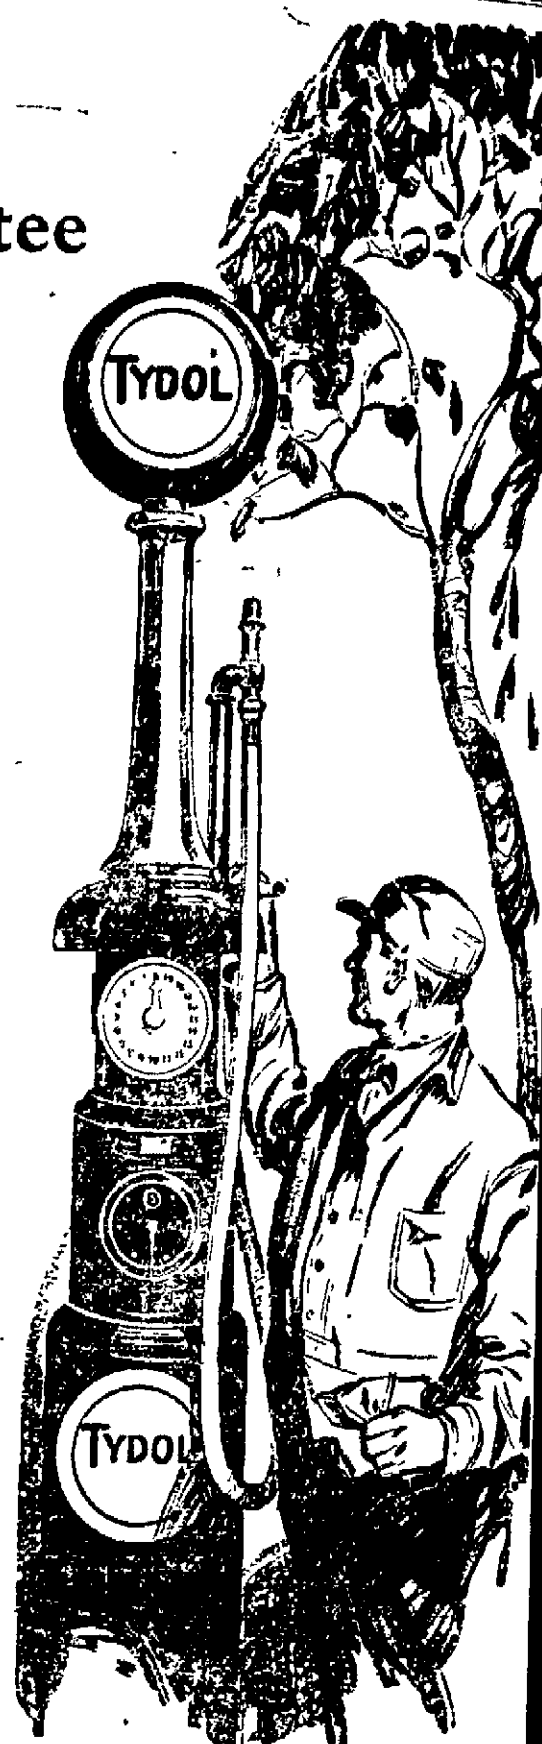

And you'll readily see why the Tydol dealers want to protect the high quality of this gasoline with the "Seal of Protection".

This is the seal that assures you that you are getting genuine Tydol

TIDE WATER OIL SALES CORPORATION  
KINGSTON OIL COMPANY, Inc.

**TYDOL**  
ECONOMY GASOLINE

The Tydol dealers in this vicinity have united in sealing every Tydol pump. They want to protect the high quality of the Tydol they sell you. They want to give you visible proof that they are selling genuine Tydol and Tydol alone.

**A. KUNST & SON**

15 BROADWAY, DOWNTOWN.

**HURLEY.**  
Hurley, July 22.—Mrs. George Faunin and daughters, Elizabeth and Maude, of Fulton, N. Y., spent the week end with her father, Cornelius Diamond, after spending a week at Atlantic City.

The Rev. and Mrs. C. W. Smith and daughters left Monday for a ten days' vacation. They will visit Montrose Bible school in Pennsylvania before returning home.

Mrs. Ernest Schmidt and grand-daughter, James, are sojourning at the old McIlhenny homestead for a few weeks.

Ronald Cameron of Grand Rapids, Michigan, is visiting his mother, Mrs. Mary Cameron.

Mr. and Mrs. Minard Elmendorf and daughter, Mabel, accompanied by Ernest Mier, returned to Kingston on Monday, returning home Wednesday.

Carl von Schiller of Hackensack, N. J., is visiting his aunt and uncle at the Newkirk homestead.

A demonstration of whole wheat products was given by Mrs. L. C. Olson in one of the ladies of the Home Mission unit in the basement of the church on Wednesday afternoon.

Mrs. Dorothy Macdoff of New York, accompanied by her mother

and brother, are guests of Mr. and Mrs. S. F. Ten Eyck.

Miss Hilda Lockwood, Miss Sarah Brink and Miss Ruth Dixon have returned home after spending ten days at Northfield, Mass., where they have been attending the summer conference.

Mrs. Maxon is spending sometime in Stone Ridge, with her brother, Miss Sarah L. Elmendorf was a week end guest of Mr. and Mrs. A. E. Jansen in New Paltz.

**ALLGERSVILLE.**  
Allgerville, July 22.—There will be a fair for the benefit of the Reformer Church of Allgerville at the R. of P. Hall Wednesday evening, July 24. Everybody come and help make this affair a success both socially and financially.

Miss Mary E. Schoenmaker, who is at the Reformer Hospital for an operation for appendicitis, is reported doing nicely.

G. E. Cook doesn't improve as rapidly as his friends would like to have him.

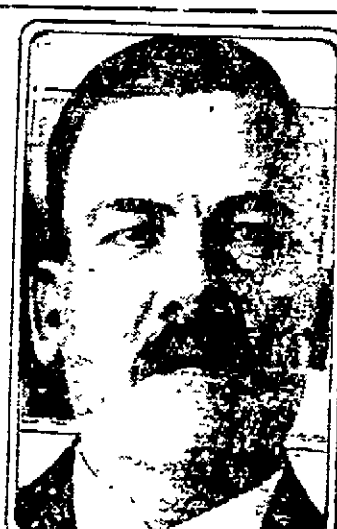

Alton Turner entertained a party to Newkirk Tuesday night from Mr. Greenfield. A boy named one of his sons and his parents took him to his home for treatment.

The thermometer registered 74 in shade on Wednesday afternoon.

## In the News of Nations

WINSTON CHURCHILL

PRESIDENT CALLES

SEN. HIRAM JOHNSON

LADY INNES KERR

Winston Churchill, chancellor of the exchequer, was challenged when he declared American loans to Great Britain were not used for other than war purposes. President Calles, of Mexico, in his campaign against the church, finds himself in the centre of the greatest religious war of the day. Secretary of the Treasury Andrew Mellon misled the American people in selling foreign loans. Senator Hiram Johnson declared. Lady Innes-Kerr, known on the stage as Jose Collins, is in financial difficulties in England.

### DRY BROOK.

Dry Brook, July 22.—Mrs. Nelson Graham accompanied her son, Leo, who was injured in an automobile accident last week, to a hospital in Kingston.

Mr. and Mrs. Robert Fairbairn, Miss Hazel Fairbairn and George Little visited relatives in Boston Sunday.

Superintendent W. E. Avery was a business caller in Kingston last week.

Mr. and Mrs. Hilar Little of Arcata were callers in this place last week. There was a meeting of the women of this place at the Methodist school house Saturday evening for

## Faces Inquiry Into Wife's Death

Waterloo, N. Y., July 23.—Daniel Clark, store keeper of Geneva, faces an official inquiry today into the death of his wife, whose body he brought into town yesterday propped up in the rear seat of his automobile. Clark said his wife, whose death was due to a fractured skull, had fallen from the car, but a party of tourists had notified police before Clark's arrival that he was beating the woman as they passed him on the road. County records show that Clark

served eleven years of a nineteen-year sentence in Auburn prison for the death of Annie May Russell, who was stabbed with a penknife. No formal charges have yet been made.

**Thrushes Long Singers**  
Among birds the thrush has perhaps the greatest singing endurance. A thrush has been known to sing 18 hours a day. A blackbird, however, has been found to have the best rhythm and sense of time, and his tune is said to be the best also.

**Train to Fit**  
For men of middle age, the best belt is the shortest.—Boston Herald.

## New York Subway Strike Is Ended

New York, July 23.—New York's subway strike, which began July 6, is ended.

The general committee of the striking motormen and switchmen, voted last night to go back to work. The men were to ask for their old jobs this morning.

Strike leaders blamed their failure to win the strike on Mayor Walker "because of his failure to intervene." They also were disheartened by desertions from their ranks and by the effective moves of

Frank Hedley, head of The Interborough, in blocking peace parleys.

## SOAP OPPORTUNITY STILL OPEN THIS EVENING

The soap offering at the Robie evangelistic services Thursday night was laid on the platform and later donated to the Industrial Home. Due to the fact that the rain may have kept some soap bearers away Thursday evening, the invitation to bring soap remains open tonight.

Tonight the evangelist will talk on "Why I am a Christian." The meeting starts at eight o'clock.

## Made White Horse Idol to Placate Spaniard

Hernando Cortez, in the year 1523, entered Peten, the northernmost department of Guatemala, on his way from Mexico to Honduras. Eugene Cunningham relates, in Adventure Magazine, the first white man to penetrate those dense jungles and reach Lake Peten-Itza, which in the Mayan tongue was "Haltunna," or "Lake With Houses," and look upon the busy island city of the Itzae, an offshoot of the advanced Mayas who then peopled Yucatan and Guatemala.

The canoe, or lord of the Itzae, received the Spaniard with courtesy. He embraced Christianity and pledged allegiance to the Spanish king. Cortez remained for a time at Haltunna, letting his force recover from the hard journey, and when he went on to Honduras he left behind a lame white horse. This animal has furnished the flexible imaginations of Spanish historians with one of their most picturesque myths of "Mysterious Peten."

For the Indians, so the story runs, having never before seen a horse and, understanding only that it was sick, fed it as they would have fed a human invalid of more than ordinary importance. The poor brute did not long survive a diet of cooked meat, fish and birds.

Upon its death the poor Itzae, who had worshiped it as something rather more than mortal, were fearful of Cortez' wrath. So they thought to be-

fool the conquistadores. They carved from white stone a replica and set it up in their chief temple against Cortez' return.

Even today, say some inhabitants of Flores—the modern town on the site of Ancient Haltunna—the image may be seen at certain times in the waters of Lake Peten-Itza, near the uninhabited island of Santa Barbara, where it sank when the raft transporting it was wrecked. This image, reported by two Franciscans as in the temple in 1618, is often termed the "Sacred White Horse of Peten" and the "Sacred Horse of Guatemala."

Cupid may be blind, but he doesn't have to carry a tin cup or sell pencils to make a living.

## Gangland Flares, Four More Slain

Chicago, July 23.—A millionaire cafe owner, a detective, a watchman and a Negro bandit were dead here today after another gangland upheaval.

Philip Piana, owner of the Milano Cafe, Chicago Heights, was assassinated by gunmen in the doorway of his establishment.

Theodore Anderson, detective, was slain by two Negroes who tried to hold him up. Fifteen minutes later his slayer was shot and killed by police.

Harry Kind, watchman, was beaten to death with a crowbar when he tried to resist safe robbers.

## Law Broken

Captain Otto C. Dowling, heroic commander at the Lake Denmark, N. J., arsenal at the time of the explosion, told the Navy investigators that the plant carried more than the legal limit of explosives at the time. He appeared, bandaged and in a wheel chair.

International Newsweek.

**Whitman Given High Place**  
John Bailey, the English critic, in his life of Walt Whitman credits him with being the "most original genius America has yet produced." Of the poet he says: "He is often a fine artist by a sort of divine accident, but he was equally pleased with himself when, as happened still oftener, he was not an artist or a poet at all."

## Patsy Ruth Miller

Patsy Ruth Miller, popular "movie" star, as she appears in her latest picture, "Rose of the World."

## The Hotel Stenographer

"That's that!" The Hotel Stenographer smilingly put the cover on her typewriter.

"Done for the day?" asked the House Detective.

"Kelly, I am done with that job forever," laughed the girl. "That's the thing which keeps me downtown dressed up all day instead of at home in curl papers and kimono. Down here I finish a job knowing I will never have to do it again. That's a lot of letters about stock in a cement coffin company. The suckers will bite and get hooked or they will waste-basket those letters as they should be. In either event I won't have to write them again. That the cement casket people waste a lot of cement that ought to be made into good roads everywhere is none of my affair."

"But at home there is no such thing as finishing a job. While you wash one red flannel undershirt Jimmie dirties another. While you clear off the breakfast dishes you put the scraps into a stew for lunch and move the pot of cabbage you cook for dinner onto a warmer part of the stove."

"While you scrub the kitchenETTE cuts paper dolls and scatters the scraps all over the dining room, while pop knocks the ashes out of his pipe on the arm of the chair in the sitting room. So it goes day in and day out, week in and week out, and months and years till they scent up the flat with tube roses for the woman who had a job that never was done."

"If for business, Kelly, where you can see the finish of something. Home life is like one of those movie serials which never finishes, or a continued story in a magazine which is never done! I hope I never fall in love and marry!"

(© by the McManis Syndicate, Inc.)

## How It Started

By JEAN NEWTON

## THE "UNION JACK"

THE Star-Spangled Banner explains itself; likewise the Tricolor of France. But who put the Jack in Union Jack? This curious term, which is the name by which we know the British flag, has been the subject of much surmise, but so unique is the history that you would never guess it in a thousand years!

In ancient times every English soldier in the field wore the protecting "jacque" or surcoat (overall), which was a garment of padded leather interspersed with pieces of plate armor. Upon the breast the crimson cross of St. George. When the soldiers had occasion to board a ship their jacques were placed next to each other along the bulwarks of the ship in the same way that the Romans arranged their shields on board their galleys. The jacques so afforded the men protection against the arrows of their adversaries on the water and by the device upon their outer side proclaimed the nationality of the ship. Excepting the King's own ship, which bore the royal arms on a silver sail, the jacques bore the only indication of the nationality of a vessel.

In the course of time, when the jacques were no longer needed along the bulwarks, a solitary jacque was displayed at the bowsprit, and so the name "Jack" came into use for the flag that superseded it.

In 1901 the three kingdoms of England, Ireland and Scotland, were formally united and the British flag made a combination of the cross of St. George for England, of St. Andrew for Scotland and St. Patrick for Ireland. It was this union which made the British flag the "Union Jack."

## Ancient Copper Mines

The copper mines of Spain were worked by the Phoenicians as early as 1200 B. C., and are still productive. It was in these ancient mines that our modern methods of mining metals were first developed.

# VAN WAGENEN'S

Operated by THE ROSS STORES Inc.

## See How easy it is to set the Thum-Set MOUSE TRAP

You've never seen such a simple mouse trap. Just a flick of your thumb, and it's all set, ready for Mr. Mouse. No nerve-straining, hair-splitting adjustments—no danger to your fingers.

## Easy to Clean

Just a slight pressure at the top of the trap and dead Mr. Mouse falls out. Your hands have not touched the animal nor the wire that caught it. Then this trap is easily and quickly sterilized by dipping in scalding hot water.

## All Metal Will Last Long Time

Made entirely of high-grade galvanized steel and oil-tempered wire. The only traps that will withstand sterilization in boiling hot water. Come in and see them today.

At your dealers or sent postpaid 45 cents.

Also see "FURSET RAT TRAPS."

## Farmers Receive G. L. F. Dividend

14000, July 23.—Thirty-five thousand farmers, shareholders in the Cooperative G. L. F. Exchange, recently received a six per cent dividend on their stock in that organization, according to an announcement made here by N. F. Webb, president of the cooperative buying corporation.

The stockholders hold 154,676 shares of stock valued at \$5 a share. The total amount expended in the dividend was \$46,602.80.

The G. L. F. is said to be the largest farmers' buying organization in this country. The initials stand for Grange, League and Federation (Farm Bureau), the three farm organizations of New York state which set up the Exchange in 1920 to buy seeds, foods and fertilizers for their members. The Exchange owns or leases two feed mills, one in Buffalo and another in Peoria, Ill.; owns a seed warehouse at Syracuse, N. Y.; and has a part interest in a fertilizer factory in Baltimore, Md.

According to a recent report the farmers' organization in the last twelve months handled the greatest tonnage of mixed feed of any single organization in this country. It serves farmers in New York, New Jersey and northern Pennsylvania. No profits are taken on the materials it handles, only a sufficient amount to pay 6 per cent on stock and maintain the legal reserve.

Once regarded as an experiment in cooperative buying, the Cooperative G. L. F. Exchange is now said to be one of the most successful farmer-owned organizations in the world.

## HIGHLAND.

Highland, July 22.—D. of A. of this place, Ida McKinley Council, held a profitable food sale on Saturday afternoon in D. H. Kurtz's store. They had a good supply but not enough for the demand. Everything went rapidly and a fine sum was realized. These are good things to have during the heated term for many do not want to bake and will go and purchase and help in a good cause.

Alfred Whittier, who resides at Hackensack, New Jersey, has been in this place visiting for a short time. Mrs. C. Hoyardt has had guests from Winsted, Connecticut, for a short time.

August 10, the M. E. Sunday school have their picnic up to Dashville Falls. This is a delightful spot. There will be autos to convey the children and they will have lots of good things to eat and a grand time in general.

Ida McKinley Council, D. of A., held their regular meeting Wednesday evening. Heat was intense, but the members went right on, had their fans and tried to keep cool. Large attendance. They had balloting on applications and they expect to initiate at next meeting. Guests from Poughkeepsie may witness exemplification of work. Mrs. D. H. Kurtz was presiding officer in absence of councilor. Refreshments were served at close.

Blauche Constable is having two weeks' vacation. She has been at Rye Beach, New York and New Jersey.

George Cornell and family have returned home. They spent a week's vacation in Clintondale and Poughkeepsie.

Get your cans at Kurtz's store and fill with fruit or vegetables for the Industrial Home in Kingston.

The Presbyterian Church Union had a beefsteak broil at Rifton recently. Did not hear who was the big eater.

Kilby Johnston has returned home after spending a week with his wife's people at Van Etten.

Eighteen friends of the Rev. and Mrs. Richard Braunstein of Sharon, Conn., came to this place to have a sort of a picnic party the past Sunday. They attended service and heard a fine sermon by the Rev. Mr. Braunstein. They had a nice social visit and basket lunch. All fine on a warm day. They were all delighted.

Mr. and Mrs. William Bond have returned from New York city.

The Ladies' Aid Society of the Presbyterian Church held their business meeting on Wednesday afternoon. They are now finishing up for their outdoor fair.

Mr. and Mrs. Albert Frey and Mrs. Angelina Westcott of Jersey City were in this place on Sunday and Monday calling on their friends.

Mr. and Mrs. J. Graham are having a week's vacation.

Mrs. Frank Terpening of West Park and P. M. Terpening of Lake Mohonk were guests on Sunday of Captain and Mrs. R. H. Draper at their home, "Glen View."

Mrs. Harry Wadsworth, Jr. is entertaining her husband's sister, Mrs. Lena Wadsworth, for a few days.

Mr. and Mrs. F. L. Palmer of Grand Staircase, attended the funeral services of Mrs. Martha Palmer, wife of Mr. Palmer, Thursday, at Lake Katonah, Sullivan county. She was a trained nurse and had been in Berlin for the past few years. She died from tropical fever.

Card party Friday, July 23, at "Dove Creek" home of Mrs. Walker for benefit of home work.

Mr. L. G. Lawrence has returned home after a week spent in Troy and other places.

Mr. and Mrs. T. Hudson, of New

Cupid may be blind, but he doesn't have to carry a tin cup or sell pencils to make a living.

Meek Pedestrian (marooned in the middle of city street)—What a blessing I brought my lunch with me!

Just think of the hardships a sailor has to endure.

It has almost reached the point in this country when anything is introduced as being of great benefit to you, you know instinctively that it isn't going to taste very good and is going to be outrageously expensive.

He—"My what grand children!" She—"Sir! These are my daughters."

"If you collect this money," said the hardware merchant, "I will give you a regular job."

To the merchant's astonishment, the young man returned in half an hour with the money.

"How did you do it?" he rasped. "I told him," said the young man, "that if he didn't pay me I would tell all his other creditors that he had paid."

Presents Requested.

I used to take her candy.

Every time I called around.

For I liked the look of pleasure in her eyes.

And I sent her flowers daily.

Although pretty soon I found it kept me broke and wasn't very wise.

Well, it seemed to make her happy.

So I gladly paid the fee.

And it saved a lot of argument and strife.

But I sort of overdid it.

For she went and married me—

And now I've got to keep it up for life.

Most school boys would swap a year of their lives to see teacher fall on the ice.

A drowning man threw his pocket-book to his brother on the bank. That is using the old loan all right. No matter where he was going he wouldn't need it.

"Has the young man who is calling on you given you any encouragement?"

"Oh, yes, father. Last night he asked me if you and mother were pleasant to live with."

Lots of folks go to church but lots more stay away.

Be careful, boys, the little hand that you love to hold may some day hold a six-shooter.

First Actor (on tour)—How do like my room, as a whole?

Second Ditto—As a hole it's fine, as a room—not so good.

A hick town is a place where everybody is a topic of conversation.

In the spring a young man's fancy is likely to turn to everything but thought.

Some folks are so lacking in musical talent they can't carry a tune except on a phonograph record.

Boss—So you bought your new hat on time?

Maid—Yes. The man wanted \$10 cash for it, but he gave it to me for only \$10 down and \$1 a week for five weeks.

Dialect is the slang we use when speaking to our side-kicks.

Copyright Office Cat Syndicate, 1416 Shepherd St., N. W., Washington, D. C.

Gold Discovery Due to Shrewd Observer

Gold was discovered in Australia, the great island continent, for the first time about seventy-five years ago, by Edward Hargreaves, who was a California forty-niner, and who was struck with a similarity between the strata and rocks of the district of Oorobol, near Bathurst, Australia, and those of the Golden state.

When he returned from California he began digging and in 1851, on February 12, he struck gold in considerable quantities. The news caused intense excitement throughout New South Wales, thousands flocking to the "field."

A few months later an aborigine found a large lump of gold amounting to 222 pounds of gold in three blocks of quartz. Gold to the value of \$40,000 was shipped to England in the first ten years after its discovery by Hargreaves.—Chicago Journal.

United Central America

In 1822 the five Central American states were united into a national federation, which subsequently adopted a constitution modeled after that of the United States. The federation was partially ended in 1825, and completely dissolved in 1847.

With this as a precedent, it is not surprising that...

THE KINGSTON DAILY FREEMAN, FRIDAY EVENING, JULY 23, 1926.

### Schillings Won 5-Inning Game

Hitting the ball hard in every inning and coupled with a few walks enabled Schillings to defeat the Athletics, 5 to 4, at the Athletic Field, Thursday night, in a game which was shortened by the thunderstorm. The victory put Schillings in fourth place in the Industrial League and dropped the Athletics to fifth place in a tie with the City.

Didrik and Connelly led the attack on Smith, who was pitching for the Athletics. Connelly got the longest hit of the game, a triple in the fourth inning.

Alwardt and Connelly did the twirling for Schillings. Alwardt had a stormy session in the second frame when he became wild and allowed two hits. His teammates made a couple of bad boots in this inning. Connelly pitched the last inning, retiring the side without a hit.

Schillings got to Smith in the first frame for three runs. Jones and Noonan walked and Connelly and Didrik singled, two runs resulting. Connelly scored on Scheffel's grounder to first base.

A big rally, which netted five runs, put the Shirlins in the lead in the second inning. Alwardt couldn't locate the plate and walked Norton and Levy. Sweeney and Stauble hit for one base and Schillings's fielders helped them along by booting a couple of grounders and dropping a fly. The Athletics added one more in the third. Schillings scored two in the third. Didrik, Scheffel and Gorman getting singles. In the fourth they hit every thing Smith had. Five hits in a row by Noonan, Connelly, Didrik, Scheffel and Alwardt scored five runs. The Athletics could do nothing with Connelly's slants and were easy outs in the fifth inning. As Schillings were going to bat the thunderstorm came and the game was called.

### Tilden Favored To Win Longwood

Brookline, Mass., July 23.—The question of who is to meet "Big Bill" Tilden in the final round of the Longwood Bowl Singles Tournament will be settled this afternoon when Takeichi Harada, of Japan, and Lewis N. White of Austin, Tex., meet in a semi-final match. Tilden won his way into the final yesterday by defeating Edward G. Chandler of Berkeley, Cal.

It was the consensus of opinion here that it would not make much difference who opposed the Philadelphia "Tennis King," as far as the final outcome was concerned. Tilden has been playing in his best form throughout the tournament and is expected to add the Longwood title to his long list of victories.

With the weather somewhat cooler than yesterday, players and spectators today seemed to be in the mood for a long day.

Warren F. Cox, Jr., Kansas City, and Arthur Hulse, Boston, will fight it out for the Massachusetts State Singles Championship.

Arthur Hulse and David Scott, Boston, will battle with Ben W. Allen, Jr., and Louis Fagan, Jr., also of Boston, for the State Boys' Doubles Championship.

Other semi-final matches were to be played in the State Junior Singles, and Women's Invitation Singles, while fourth and consolation rounds were to be contested in the Longwood Bowl Doubles.

Here are the winners.

Thursday evening the Blue Sox took a hard fought game away from the Royal Defenders of East Longwood by a 7-4 score. The pitching of Louis for the Blue Sox was the feature of the game. He struck out twenty men.

### Tagging Major League Bases

The Yankees and White Sox engaged in a slugfest of the season yesterday, the Yanks being on top 13 to 10 when the smoke cleared away. Ruth got no homers, but stole home and tripled with the bases full.

The Athletics lost to Cleveland, 4 to 2, for their sixth straight defeat. The Indians gained a clear title to second place.

Although Jacobson got five hits and the Red Sox fought hard, they lost to the Browns in the eleventh, 5 to 4, going down for the third time.

Detroit's pitchers wilted away faster than a shoe clerk's bankroll on Broadway as the Tigers succumbed to the Senators, 13 to 9. Holloway posing eight men. Washington had two big innings, scoring five runs in the first and eight in the fifth.

Driving in eleven runs in the second inning, the Reds slaughtered the Braves 13 to 3. Curtis Walker hit two triples in one inning and Bubblers Hargrave collected four singles.

The Pirates also had a field day, swamping the Dodgers 14 to 3 and hammering out twenty-one hits. Warner led the attack with four blows.

Virgil Barnes bested Alexander the Great as the Giants trounced the Cardinals, 5 to 3. Bell, Southworth and Terry hit homers.

The Cubs came a cropper and lost to the Phillies, 5 to 4. Gabby Hartnett, Chicago catcher, was injured.

### Last Night's Fights.

At New York: Tommy Freeman, Cleveland heavyweight, drew with Gusman Brown, 12 rounds.

Tommy Cato, Canton, light-heavy, lost to Pat Moran, New Orleans, 10 rounds.

Harry Watson, fighting Harry Cook, light-heavy, was forced to quit in the sixth round because of a serious injury to his eye.

### The Cupcake Association

A busy bunch of cupcake makers were at the Longwood Bowl today, busy with their little cakes. They were the cupcake makers of the Longwood Bowl, and they were busy with their little cakes.

### Colonials Drop Game to Ravena

Harrington Let Locals Down With Three Hits in Seven Inning Game—McMara Allowed Six Blows.

The Ravena-Coeurvenay A. C. gave the Colonials a trimming up in Ravena Thursday afternoon in a seven inning battle which ended, 4 to 2. "Lefty" Harrington did the twirling for the Ravens club and pitched great ball, giving the Kingston club but three hits.

Johnny McMara was in the box for the locals and gave six hits but several of the blows were of a hunky nature and the up-staters made the most of them. The Ravens club hit Johnny for four three baggers, three of the triples coming in during the sixth frame. The up-staters made three of their runs this frame.

R. C. A. C. scored in the fourth on Millett's triple and Hummer's single, two being down at the time. They added three in the sixth. Harrington singled. McMara took Galt's punt and threw to second, but Deegan let the ball get away and Harrington went to third and Galt to second. Walz was thrown out at first. O'Brien throwing to Deegan to get Galt off second. Millett poled his second triple of the game and Hummer and Muller also tripled, three runs being scored.

The Colonials scored in the first when Allen doubled, advanced on Kelly's sacrifice and scored on a wild pitch. They scored again in the sixth when Melvin singled, two walks filled the bags with two down and scored on McCue's infield hit. The score:

Colonials.		A.	B.	R.	H.	P.	O.	A.	E.
Phelps, r.f.	2	0	0	0	0	0	0	0	0
Allen, l.f.	3	1	1	0	0	0	0	0	0
Kelly, c.f.	1	0	0	0	0	0	0	0	0
McCue, 3b.	3	0	1	0	4	1	0	0	0
Peters, a.s.	3	0	0	2	1	0	0	0	0

### Miller Huggins Has Yanks in Lead

Manager Miller Huggins.

A year ago when the Yankees were headed nowhere in the American League and were battling to remain out of the basement, one man was blamed for the tremendous flop and that man was Miller Huggins.

Today the Yankees are at the top of the junior circuit and stand an excellent chance to hang on to that precious position, but in the comments on the form reversal one hears nothing about the same Miller Huggins, who has continued as the pint-sized manager of the Yanks.

Falls to Inspire Praise.  
Huggins probably would be the most tragic figure in baseball if he believed one-tenth of the diatribes directed against him. As it is he falls to inspire praise and offers

Operated by JOHN A. DU BOIS.

Question—When a frame building burns down, what is left? Answer—The chimney alone, because it is built of brick. Chimneys are built of brick because they are fireproof. Why not construct the whole building of brick, that is Real Fire Prevention. An ounce of prevention is worth a pound of cure. When you build, use brick exclusively. There may be a slight increase in first cost, but always a large saving in maintenance. Building brick and sand. TERRY BROTHERS CO., Tel. 1674.

Mrs. R. H. McCutcheon, Licensed undertaker and embalmer, 44 Prince street. Telephone 1920.

STORK BROS. TAXI SERVICE, Day or night. Phone 2100.

## Jardine to Speak At State Fair

Utica, July 19. Secretary of Agriculture Jardine has accepted the invitation of the New York State Farm Bureau Federation to deliver an address on Farm and Home Bureau Day at the New York State Fair, it was announced here today at the headquarters of the state federation. The fair which is held in Syracuse will run from August 30 to September 4. Farm and Home Bureau Day will be Tuesday, August 31.

It is expected that the biggest gathering of farmers that has turned out in recent years will be present to hear the Secretary of Agriculture. One of the chief features in the recent farm relief drama enacted in Washington, Secretary Jardine has gained the support of New York farmers for his conservative stand. They are anxious to meet and hear the representative of agriculture on the President's cabinet. The subject of his address has not been announced as it is not known whether he will refer to the various farm relief bills, requested by western farmers but not entirely approved of by eastern farmers, which failed in the last Congress.

Farm and Home Bureau Day is an annual feature of the fair. On that day the New York State Farm Bureau and the New York State Home Bureau provide the chief speakers and the two associations are usually the guests of the Fair Commission at a big luncheon in the Club House.

Burning Papers Endanger Barn. The firemen were called to 55 St. James street Thursday afternoon by an alarm from box 77. The fire was on the W. T. Abernethy property where burning papers had set fire to grass and endangered the barn at the rear of the property. No damage was done and the blaze was out in a few minutes.

Rosendale Food Sale. The Town Wide Guild of the Rosendale Baptist Church will hold a food sale on the church lawn, Saturday afternoon.

CONSTIPATION, A NATIONAL AILMENT, HELPED BY HATHORN

Saratoga's Natural, Sparkling, State Owned Laxative Water.

Lack of "roughage" in the food eaten by most Americans is the chief cause of incomplete elimination (constipation), which has become so prevalent in all parts of the country that it might almost be called a national ailment.

For many generations Hathorn water has been recognized as the most famous, gentle laxative that ever came bubbling up from nature's laboratory. Millions of people travel to Saratoga Springs to drink Hathorn at the spring, but many millions more now have it served in their homes every morning before breakfast. It is bottled under State supervision and in the exact form as it flows from the spring—nothing added, nothing taken away. Hathorn doesn't taste like medicine. It is pleasant and refreshing. It brings a sense of freedom and buoyancy. It starts the day with optimism and confidence.

Geyser is a delightful companion to Hathorn. Geyser is sparkling, delicious and refreshing, and most beneficial when taken with meals to neutralize acidity and prevent indigestion. It is remarkably effective at big banquets and dinners to counterbalance indiscreet eating. Geyser is also very useful taken in liberal quantities between meals to relieve rheumatic tendencies.

Sold in Best Grocery Co's store, and by other high-class dealers.

## Post Office in Wayside Inn

Wayside Inn at Millville, which has been closed for a number of years but which was reopened recently, will house the Millville post office after December 1 of this year, according to a recent announcement by the post office department. The office will be installed in the south wing or annex to Wayside Inn.

The post office at Millville at the present time is located in the Millville Savings Bank building, where it has been since 1908. This building has proved to be too small to take care of the increase in business and for that reason the post office department decided to look for a new location.

According to post office officials at Millville the mail volume handled through that office has increased more than twofold during the last twenty years. More postage went through the office during the month of June than would have been handled in the average year twenty years ago.

Since the post office moved into their present quarters in the savings bank building the territory has expanded to include eleven subsidiary offices: Grammar, Fairland, Greenfield, Grahamsville, Lackawack, Monticello, Euroka, Sandown, Napasoch, Red Hill and Peakamoose.

In Law's Tail

Elsie Jones, the actress, was detained for questioning by New York customs authorities when, it was reported, she returned from France with \$20,000 worth of jewels.

Jews Favor Amalgamation. An amalgamation is favored by many of the prominent Poughkeepsie Jews, of the Poughkeepsie Hebrew School and the Jewish Center. It is the belief of these men that an amalgamation would be for the best interests of all the Jewish elements of that city and especially for the two organizations concerned.

Highland Pastor Builds Camp. The Rev. Richard Braunstein of the Highland M. E. Church has purchased a parcel of land near Cairo, Greene county, and is building a picturesque camp. It is expected that he will do a considerable amount of literary work there.

Sunday School Picnic. The annual Sunday school picnic of the Franklin Street A. M. E. Zion Church will be held on Thursday, July 29, at Forsyth Park. The school is planning for the biggest picnic yet held.

Had Care for Everything. Medicine for almost whatever ails you could be obtained from a roodoo doctor in Atlantic City until recently, when the police interfered. Here are the medicines, set forth in the doctor's pamphlet:

Black Cat's Ankle Dust.....\$300

Black Cat's Wishbone.....\$1,000

King Solomon's Marrow.....\$1,000

Easy Life Powder.....\$100

Tying Down Goods.....\$50

Chasing Away Goods.....\$50

Boys Fix Powders.....\$15

The tying down goods were guaranteed to hold the affections of a husband or a wife, and the chasing away goods were said to be efficacious in shying off undesirable suitors. The boys fix powders were recommended for employers hard to please. They were designed to make the employee happy and content with the work of an employee.

Monarch as Yachtman. The work of Charles II on behalf of the navy has been undervalued. It is claimed: let us then give him full credit for his services to yachting. The Merry Monarch acquired a knowledge of the sport during his exile in Holland, and soon after the Restoration acquired a couple of small yachts, in which he and his brother, the duke of York, competed in the first yacht race on record in British waters between Greenwich and Gravesend in the autumn of 1661. So keen was Charles that he had no fewer than fourteen yachts built for his use, ranging from 25 to 100 tons, and one of them, the Janes, was constructed at Lambeth from his own designs.—Montreal Family Herald.

English City of Homes. More working-class people own their own houses in Northampton than in any other British city, according to building society statistics.

## Kingston Slipper Co. Incorporates

A certificate of incorporation has been granted by Florence M. S. Knapp, secretary of state, to the Kingston Slipper Company, Inc. Purpose for which the corporation has been formed is to manufacture, acquire and deal in leather, satin and felt slippers and to manufacture a general line of leather goods. Principal office is to be in Kingston. Capital stock, \$10,000. The directors are Jacob Cohen, 48 Abrayn street, Kingston; Hyman Davidovitz, 479 Georgia avenue, Brooklyn; Robert G. Groves, 34 Montrose avenue, Kingston.

Odd Buildings Traced to Roman Occupation

Stories have been made for centuries to bare the mystery that hangs over the unique "Hows" at Chester, England, but their efforts have been in vain. These rows consist of street lengths of covered arcade, not on the street level but several feet above it. One walks in front of shops and on the roofs of shops at once, looking down upon the traffic in the street and upon pedestrians. Visitors say that the mystery of the origin of these structures causes them to give a pleasant, creepy feeling to those who walk through them and that buying a collar stud in the rows is almost like buying a bronze or picture on pavement level.

Chester was the great Roman military station of Deva. The central point of the Roman station was exactly where the rows now converge. The principal streets of the modern city were the principal streets of Deva and the principal streets of all subsequent towns on that site.

The Romans left Deva about 400 A. D. and for two centuries afterward burning Chester was a favorite game with the powers of the time.—London Times.

Scientists Plan War on Destruction Ants

In an effort to combat the ravages of ants in tropical regions, scientists of the bureau of agriculture are studying various preparations for the extermination of the pests. The white ants, which travel in great armies, exist on wood and heavy roots and devour fence posts, house pinning and even totally destroy small buildings, says Popular Mechanics Magazine.

Not only are structures attacked, but cultivated vegetation by the acre is consumed by the cutworm or umbrella ants. These insects often clean out an entire garden in a night, leaving nothing but the bare stalks of the plants. In Colombia, where great colonies of these ants are found, they build large, cone-shaped mounds of a white claylike substance, which in many cases rise to a height of 20 feet and at a distance look like Indian mounds. Once started on a building, or piece of furniture, it is said the wood-eating species cannot be stopped by any method now known until the material is completely destroyed.
